THE BRIDGE

Cape Fear Technical Institute
Wilmington
North Carolina

Building The Bridge

A pilgrim going a lone highway
Came at evening, cold and gray
To a chasm, deep and vast and wide.
The old man crossed in the twilight dim.
The chasm held no fears for him
But he paused when he reached the other side
And built a bridge to span the tide.
"Old man", said a fellow pilgrim near,
"Why waste your time in building here?
Your journey ends with the close of day
You never again will pass this way.
You've crossed the chasm deep and wide
Why build ye here at eventide?"
The pilgrim raised his old gray head,
"My friend, in the path I've come", he said,
"There followeth after me today
A fair haired youth who must pass this way.
The chasm which held no fears for me
To the fair haired youth may a pitfall be.
He, too, must cross in the twilight dim.
My friend, I am building this bridge for him."

William Dromgoole

Foreword

This edition of The Bridge is significant in two ways. Of most importance—it is the first one. We hope that as its pages are perused, each student will feel a little closer to his school; and he will be glad to have been here.

Secondly, this school is a bridge over which those seeking skills can cross into the areas of job security, better pay, and advancement. The technician and the tradesman can graduate from our school and suddenly be in demand, whereas before, he perhaps had no saleable skill. These graduates and our current students are our greatest assets.

This first edition is dedicated to those who have crossed or are now crossing the bridge.

Student Government

L-R: Sandy Parnell, Treasurer; Dwight Kelly, Vice-President; Carrie Wiggs, Secretary; Arthur Brown, President

The student government, under the leadership of its elected administrative officers, has worked for the betterment of our school. It has seen the need for a revision of the constitution and has worked toward that as a principle goal. Student senators and representatives have worked on various other committees that were organized to bring the student body together into a more united spirit. The main difficulty that the student government has faced this year is the apathy toward school unity on the part of many of the students. But in spite of this, our student government association has worked hard for the betterment of our school. We cannot ask for anything more.
